

Vale Consulting Services

Controlling Leakage in the Wake of a Catastrophe

Did you know that more leakage occurs on catastrophe claims than any other losses? It's not too late to stop this from happening to your claims department following Hurricane Matthew.

Vale Consulting Services can assist by thoroughly evaluating your current practices while you are handling the losses resulting from Hurricane Matthew.

Contact us today to learn more about our leakage assessments at VCSInfo@vale-ts.com.

Vale Consulting Services can assist you in evaluating and controlling leakage in the wake of a catastrophe.
