

Vale Consulting Services

Desk Reviews

Vale Consulting Services has been helping carriers control the rise in average indemnity in various ways.

We have performed claims process assessments and audits to identify and control leakage, and have also been performing pre-settlement desk reviews of commercial and residential property estimates.

Vale Consulting Services Desk Reviews are performed by highly skilled estimators who take into account the carriers estimating guidelines, the documentation in the file, and industry best practices.

Our reviewers comment in the estimate on the errors they find and enter the corrected amounts. The corrected estimate is then returned to the carrier within two business days from receipt.

Savings typically average 10%-25% of the original estimate and 20 to 40 times our fee for this service!

Did you know that Vale Consulting Services Desk Reviews of commercial and residential estimates result in savings of twenty to forty times our fee?

Vale Consulting Services can assist you in analyzing and controlling leakage on property, casualty, workers compensation, and litigation management.
